

Hello Clare

Unfortunately I received this quite late on last week. I did contact Federal office and they have been inundated with requests and are responding to as many as they can. My apologies and hopefully you will direct your students to our website www.votefamilyfirst.com

FAMILY FIRST is a non aligned Party that was formed in 2001 to give voice to the often silent majority, made of families around Australia.

Our focus is and always will be on the welfare of everyday Australian families.

FAMILY FIRST'S goal is to hold the balance of power, where we can work ethically with the major parties to ensure that policies and new legislation do not disadvantage the families of Australia.

Kind Regards

Linda Rose
